

Smarter Supplier Management, Lower Costs, Greater Efficiency

HICX is the Supplier Management Platform for Enterprise

Reduce the cost of managing suppliers while streamlining operations and ensuring compliance.

Onboarding new suppliers

A single front-door for 100% of your new suppliers; flexibility to cover every supplier type.

Master your supplier data

Take control of your supplier data; a golden record for each of your suppliers, serving every system and every team in your business.

Single portal for all your suppliers

One place for all your suppliers to access the services and information they need in order to work with you.

Supplier risk, compliance and performance management

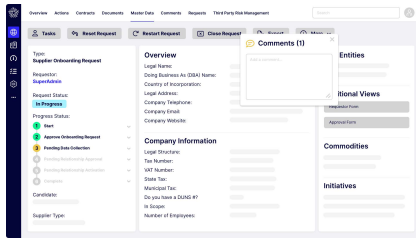

Build out supplier risk and performance programs for individual suppliers or segments at scale.

Deliver a great supplier experience

Remove the friction from the supplier experience and unlock the potential in every supplier.

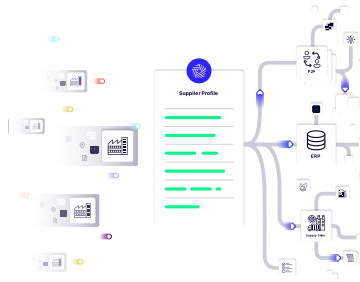

Deliver great supplier and user experiences based on rock solid supplier data.

Supplier MDM

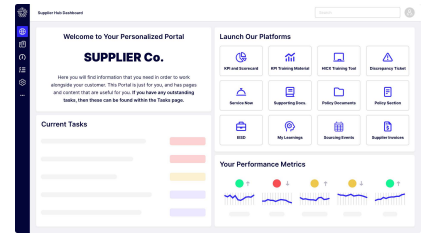

A complete supplier data record.

Capture, maintain and govern all the data that every part of your business needs on each supplier, not just the sub-set your ERP requires.

Fully Integrated

Pre-built connectors to all major ERP and P2P suites and to many best-of-breed solutions for procurement and supply chain. HICX becomes the single source of supplier data powering your entire tech stack.

Single Supplier Portal

Remove the pain and friction for suppliers with a single portal and single sign-on for all applications and content they need in order to supply your business.

The world's largest companies use HICX to power their supplier management

AutoNation

BAE SYSTEMS

cytiva

edf

Lenovo

MARS

Orkla

Unilever

In order to build a best-in-class supplier experience such as Supplier Central, you have to have the right foundations that enable the deployment of best-of-breed solutions. With HICX, we now have that and we are looking forward to further differentiating ourselves across the board.
